

## The Border Vidette.

ISSUED WEEKLY AT

NOGALES, ARIZONA.

—BY—

FRANK M. KING.

OCTOBER 30, 1897.

HOARY frost has brought hope to the people of New Orleans.

NO PEOPLE watch the progress of the yellow fever more closely than do the railroad men.

THERE are no idle mechanics in Nogales who really want a job. In many enterprises there is a lack of labor.

FRED G. HUGHES is still in Nogales on the Sonora side of the line, sometimes he comes to the line and looks over.

WE hope we violate no confidence when we say that the people of Nogales will heartily welcome a change of postmasters.

SILVER turned to gold and skimmed milk converted into champagne in one week is too much. Give us our luxuries one at a time.

WE must have a new public school building. Nogales has outgrown the one she has and bonds should be floated and a fine structure erected.

THE San Francisco Examiner says "for a planet that's said to be dead the moon gets full pretty often." May be they're holding a wake over the corpse.

MEN up north are committing suicide because they can't get work. Here employers are on the verge of suicide because they can't find men enough.—Mexican Herald.

THE VIDETTE hopes that Postmaster Wylie will soon be replaced by a postmaster who has some accommodation about him and one who will not use his office to vent his personal spleen against people who are so unfortunate as to have mail come through the Nogales office.

THE adoption of the gold standard in Costa Rica was never popular with the business men who now declare it to be absurd and impracticable. It will be found quite as foolish a proceeding in Peru, and as for Chile, business has not improved there since silver received its cong.—Mexican Herald.

C. C. Ridgeway, the U. S. Chinese inspector, will leave Tuesday for Tucson where he will make his headquarters. Mrs. Wm. N. Cummings gave him a little farewell party at her house last evening, just a few friends being present. Mr. Ridgeway's mother will join him in Tucson for the winter.

FRIENDS of Postmaster Wylie have asked "what is the matter with Wylie and the VIDETTE." We have to say that Mr. Wylie is using his office to make all the trouble he can for the VIDETTE and as long as he does the VIDETTE will camp on his trail. We are not exactly the kind that will turn the other cheek when we get one of them slapped and if Mr. Wylie thinks he is going to "make it hot" for us and get off without getting his feathers singed he is very much mistaken.

WE sincerely hope that Fred G. Hughes may speedily return, if for no other reason than to prosecute the Gazette editor for libel; and for cause of action allege the "publication in the Arizona Gazette of October 17, 1897, a certain hideous picture or daub labeled Fred G. Hughes." Fred may deserve "doing time" in the pen; he may even deserve hanging, but with all his crimes, Fred never deserved that life-like (!) picture.—Pick & Drill.

THAT divorce is not always a failure and that divorced persons are not necessarily broken-hearted over their release was shown in Wayne, Nebraska, recently. A woman who had been divorced from two husbands and had wedded a third time invited the exes to a little family re-union and dinner recently. The three husbands and their wife seemed to enjoy themselves greatly. It was in the nature of a thanksgiving dinner, probably. But which of the hearts of the three men was fullest of thanks, nobody knows, and it were treason to try to guess.

THERE'S hydrophobia in kisses. A woman died recently in Paris of that affliction, and when 'dying earnestly besought her relatives not to kiss her lest they contract the dread disease also. She had contracted it by allowing her pet dog to kiss her lips. Women who allow dogs to lick their lips presume a good deal on the love of their relatives if they think such lips offer special inducements for osculatory demonstrations. But the Paris woman's unhappy and untimely end should serve as a warning to hosts of American women who are addicted to the disgusting habit. And lovers will now have a new thought when gazing deep into the eyes of women they love. Instead of asking, "am I really the first man you ever kissed?" they will be careful to ask first, "has any old dog ever kissed your lips."

MR. McKINLEY is almost in a state of panic on account of his private advices from Ohio. Boss Hanna with all his egotism has become alarmed at the indifference of so many men who have heretofore been the most enthusiastic workers in every republican campaign; he fears the indifference will last until election day and that it will keep thousands of republicans away from the polls, and he has communicated his fears to Mr. McKinley, who is now trying to devise some scheme to arouse a little enthusiasm among the Foraker republicans of Ohio. Ex-Congressman Layton, of Ohio, who although a democrat is not taking any active part in the campaign because of his pressing legal engagements, has been telling his Washington friends that the Ohio democrats have an excellent chance to win, if they can only succeed in getting out a full vote. He is confident that the republican stay-at-home vote will reach way up in the thousands, and is afraid that the same cause will largely reduce the democratic vote. He says he never saw such apathy among rural voters in a Ohio campaign as exists at this time.

Regular size 50 cents and \$1.00.

### SONORA NEWS.

Mining and Other Items from Our Sister State.

As silver comes up the Caborca district increases in richness.

Business of all kinds throughout Sonora is improving every day.

One of the best copper districts of Sonora is the Cananea district.

Alamos is one of the best agricultural and mining towns in Sonora.

Seven hundred children are enrolled in the public schools of Guaymas.

The Sonora orange crop promises to be the heaviest this year that has been harvested for years.

There will yet be some rich gold claims developed at Cibola twenty-two miles south of Nogales on Don Jose Pierson's ranch.

The Yaqui river country is filling up with prospectors and some rich discoveries are expected this winter, both in quartz and placer mines.

The company that recently established the brewery at Hermosillo, and which has obtained a success, is making preparations for the establishment of a brick factory in that city.

On the first of November Don Manuel Bonfiglio will take charge of the Guaymas hospital, succeeding Gabino Caravantes, who has resigned and will shortly leave for the City of Mexico.

Mr. Jesus Bouillet of Guaymas, a young man well known in Nogales and who was in the drug business here for several years, will shortly marry Miss Garaizar of Loreto, Lower California.

All the public schools of Sonora have been supplied with books, slates, etc., by order of Governor Ramon Corral, who has taken a great interest

in the public instruction of the poor children of the state.

Superintendent Wyman at Prietas and La Colorado has gone east on a visit for a few weeks. Mr. Wymn has two cyanide plants in full operation at Prietas and La Colorado and they are working in first class shape.

Col. H. T. Richards has surveyors in the field and will soon have active excavation work commenced on his big Sonora river canal near Hermosillo. This canal will bring into cultivation many thousand acres of orange land.

Last Sunday there left Guaymas for Mazatlan on the transport Oaxaca the company of artillery, which has recently been stationed at Torin on the Yaqui river. The company is in command of Lieutenant Eduardo Nieto and did excellent service during the Yaqui war.

Eight hundred and fifty head of cattle were shipped from Hermosillo last Saturday by P. Burdick of Silver City, N. M. The cattle were from the range of Señor Monteverde and were a good lot of cattle. Jake Politzer, Dr. Adair and J. J. Chatham of the U. S. custom house went to Hermosillo to inspect the cattle so that they would not be held on the line when they came through.

Mr. A. Rebell, the enterprising Tucson merchant, returned from Sonora yesterday. He reports business very brisk there, and that the French Mining Company is constructing a railroad from Caborca to the mines, some 18 miles distant, which is a very rich property. Mr. Manager of this city made a rich strike in this same district. The Mexican Mining Company in the Sierra Pinta mining district are doing considerable development work, and all indications point to a splendid showing.—Tucson Star.

Thursday night there was a terrible accident at the Amarillas mine. Thirteen men were killed and five badly wounded. It seems as though the men were going on shift at seven o'clock that night and about half were either side of the powder magazine when she went off. It is said on good authority that no one is able to account for or will even know how it exploded as it is a box made of two inch red wood planks. The supposition is that some Mexican attempted to remove the lock from the powder magazine got his candle in the box which caused the explosion. Two men were pitched up without arms, legs or heads and came down a horrible, mangled shape. The wounded were picked up and everything done to relieve their suffering.

### SEÑOR OGARRIO PROMOTED.

Will Be Collector of Customs at Eagle Pass.

Don Rodolfo Ogarrío, collector of customs at Nogales, Sonora, has been promoted and will be transferred to Eagle Pass as collector at that port. He will leave for his new post some time in November. Mr. Ogarrío and his estimable wife have made many friends in Nogales who will miss them and be sorry to see them go. Mr. Ogarrío has always been an obliging official and people who have had business with the Mexican custom house always been fairly treated. THE VIDETTE joins the many friends of Mr. Ogarrío in wishing him success in his new office and hope his promotions will come thick and fast till he reaches the top round on the political ladder.

Señor M. Merta, who has been deputy collector at City of Porfirio Diaz will take Collector Ogarrío's place at Nogales. Mr. Merta is said to be a first class gentleman who is both obliging and capable.

### The Coming Woman

who goes to the club while her husband tends the baby, as well as the good old-fashioned woman who looks after her home, will both at times get run down in health. They will be troubled with loss of appetite, headache, sleeplessness, fainting or dizzy spells. The most wonderful remedy for these women is Electric Bitters. Thousands of sufferers from Lame Back and Weak Kidneys rise up and call it blessed. It is the medicine for women. Female complaints and Nervous troubles of all kinds are soon relieved by the use of Electric Bitters. Delicate women should keep this remedy on hand to build up their system. Only 50 cents per bottle at Chenoweth & Mix's.

If you have Mexican money to sell go to Harlow & Gowan.

### NOGALES BUILDING AND LOAN.

An Association that Helps Build up the Town.

The Nogales Building and Loan Association is one of the substantial institutions of Nogales that has done a great deal towards building up the town. Many new houses have been erected through this association that would never have been built otherwise and both the town and the people are thereby benefitted. As an investment for the saving of money and securing interest at the same time it is a success and beats any foreign association that our people could get stock in. It pays to patronize home industry in this as in other matters.

The first series of the Nogales association is now forty-four months in existence. The total number of shares is 500; number of loans made to date \$19,100; monthly interest from loans \$189.

A new series will be authorized by the board of directors at their next regular monthly meeting, November 2. The investment of shares have never less than 17 per cent per annum.

### For Sale.

Two ranches and about 30 head of cattle. One ranch in the town of Nogales and the other one and one-fourth miles north of Nogales. Good chance for a milk route.
